

727-135 Biaxial Glass Tape

**Technical
Data Sheet**

727-135

General Description

Episize™ Biaxial Tape is ideal for repairs, tabbing and reinforcing. It is made from non-woven E-glass fabric, where two layers are held together at a ±45° fibre orientation by a light stitching. The flat, non-crimped fibres in biaxial tape yield reduced print-through and also make it stiffer than woven fabrics.

727-135 50m of 450g/m² ±45° 135mm wide

Characteristics

Width	135mm
Weight	450g/m ²
Fibre Orientation	±45°
Approximate thickness.....	0.40mm
Cured Appearance	Not Clear
-45° Fibre.....	E-Glass 210g/m ²
90° Fibre	E-Glass 30g/m ²
+45° Fibre	E-Glass 210g/m ²
Stitching	Polyester 7g/m ²
